

REAL-TIME CARGO TRACKING & MONITORING SOLUTIONS FOR YOUR SUPPLY CHAIN

Offering an advanced multi-sensory tracking service which travels within your goods and continuously records real-time data linked to supply chain conditions.

Whether your shipment is by air, sea or land, we have a product that suits.

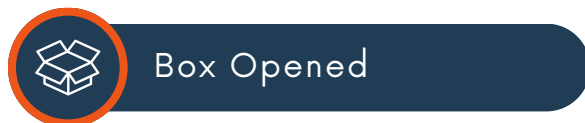

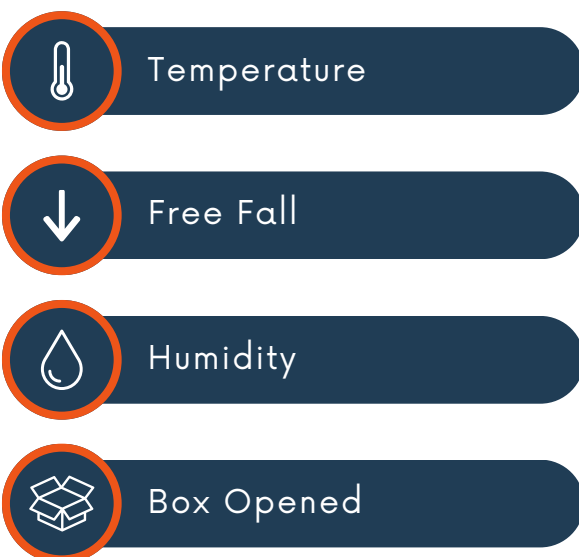

PROTECT WHAT MATTERS!

Our clients work with us after losing a valuable shipment or identifying issues in their supply chain ... but why wait until catastrophe hits when we offer so much more than just GPS tracking!

ABOUT OUR SOLUTION

Having partnered with HanHaa to integrate their IoT hardware into our solution we offer a simple, consistent, reliable, transparent product which provides data insights that are affordable, accurate, secure and environmentally friendly.

Our solution offers our clients complete visibility and connectivity to their shipments in real-time.
